School District

BOARD ACTION ITEM SUMMARY

TO: Board of Trustees

FROM: Connie Cavanaugh

MEETING DATE**:** August 24, 2017

TOPIC: Approval to purchase Aeries Communication module.

DESCRIPTION: The Aeries communication model is an addition to the Aeries student information system. It is a complete communication suite that provides a simple, safe and secure place for staff, parents and students to connect and communicate. It will also replace our "attendance phone dialer" and "emergency call" system we are currently using through Blackboard Mass notification phone dialer. It is fully integrated with Aeries which means changes to staff, students and parents is real time, and we do not have any time delay with a 3rd party product when we update data in Aeries. It provides quicker communication with parents from the teacher in a mobile type of environment and enhances the use of our Parent/Student portal, in turn improving parent engagement.

Included in this proposal is a one-time set up fee. By using this product we will be able to discontinue the Blackboard notification modules (beginning in 2018-19) and have a fully integrated communication system with Aeries.

FUNDING: LCFF S/C - $6,057.50
